PROJECTS

Comic Store E-Commerce Website

github.com/dhara-maru/Bookstore-Mern

• Developed a full-stack comic book and merchandise store using the MERN stack as part of my MCA Semester 2 project, implementing robust inventory management and user authentication functionalities to enhance operational efficiency and user security.

Stationery Store Frontend Website

github.com/dhara-maru/SketchBox-ReactJS

• Created a responsive stationery e-commerce website using React.js and Tailwind CSS, featuring dynamic product displays, a modern user interface, and an intuitive shopping experience.

Restaurant Management Website

github.com/dhara-maru/Restaurant-Management-Website

• Designed and developed a full-featured web application using ASP.NET to streamline restaurant operations, manage staff and menu items, Table Bookings and improve the overall user experience with an intuitive interface and efficient backend processing.
